

eCHOLESS

eCHOLESS is made from thermally bonded polyester fiber, successfully reducing reverberated noise and background echo. **eCHOLESS** comes with Felt facing on one side. Suitable for standing or suspended room and office dividers, suspended ceiling panels for conference rooms, auditoriums, and gymnasiums and more.

Key Benefits and Features

- 100% polyester fibers without chemical binders or retardant
- 100% recycled polyesters fiber ; made from post consumer waster
- Highly durable providing long-term stability and performance
- safe, non-toxic, non-irritant and non-allergenic
- Manufactured under ISO 9001 and ISO 14001

Environmental Benefits

eCHOLESS is made from 100% polyester fibers from recycled plastic drinking water and safe, non-toxic, non-irritant and non-allergenic

Design options

eCHOLESS is an innovative and unique acoustic wall and ceiling which offers design options. **eCHOLESS** has any design of unlimited scope including your own creation

eCHOLESS

Product Specifications

Name	eCHOLESS
Content	100% Polyester fibers
Density	299KG Per sq.m.
Wight	1600 Per sq.m.
Thickness	12 mm +/-
Sheet size	1100 mm x 2500 mm

Flammability	Class A Per ASTM E84
--------------	----------------------

Acoustic Performance

eCHOLESS is specifically designed to reduce and control reverberated (echo) noise in building interiors, with a minimum NRC of 0.40

Care and Maintenance

Remove spills immediately using a clean, damp cloth. Use upholstery or carpet cleaner as directed, starting with an inconspicuous area

Directional Installation

Prepare smooth wall substrate and affix with contact adhesive or heavy duty construction adhesive. Also be installed using mechanical fixtures similar to glass fittings.

Production lots may vary batch to batch and when compared to samples due to fiber blending, which is an inherent feature of this product.
